JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PREVALENCE OF MALARIA IN CERTAIN STATES.

The table given below shows the results of the circularization of physicians for the purpose of ascertaining the prevalence and type of malaria during the months of January and February, 1918. A similar summary for the month of January, 1918, for Georgia, New Jersey, Ohio, Virginia, and the eastern half of Texas was published in the Public Health Reports April 5, 1918, pages 489-490.

Summary of postal-card reports of malaria.

	Ohio, Feb., 1918.	Oklahoma.		Texas (eastern half), Feb., 1918	Virginia, Feb., 1918.
		Jan., 1918.	Feb., 1918.		
Cards mailed to physicians.....	7,912	2,634	2,634	3,450	2,420
Cards returned unclaimed.....	82	18	13	65	18
Replies received.....	1,113	301	195	515	759
Percentage of replies received.....	14.21	11.50	7.43	15.21	31.59
Counties represented in replies.....	44	73	67	96	93
Counties not heard from.....	44	4	10	16	2
Towns or cities represented in replies.....	307	188	140	256	422
